

Can not access DCS? It's a known issue and supposedly a ticket opened at the NOSC for it. The interim fix is to point to this proxy: rosc2-bc-01 port 80.

Open web browser and click on Tools then Internet Options

Select the Connections Tab and click the LAN setting

NOTICE: There is the potential that information presented and exported from this system may be Controlled Unclassified Information (CUI). It is the responsibility of the user to ensure that this information is not disclosed to unauthorized personnel.

Check "Use a proxy server for you LAN..." and type in rosc2-bc-01 as the address and 80 as the port.

Click OK and try your DCS.
